Letter of Gratitude

The following letter by the Bulgarian Association of victims in car accidents is to express our sincere appreciation to the management, the teachers and the students of 138th 'Vasil Zlatarski' School for their active support in our ongoing initiatives and commitment shown in the battle to reduce the number of fatalities on the road, particularly among young people. Our association found a reliable partner in initiatives related to road safety, namely:

- Successful campaign held by the students for funding the treatment of children injured in accidents, by selling charity cards.
- At the International Film Festival for road safety in Morocco in 2010 the association presented the video 'Drinking and Driving? No, thanks' - created by students from 138th Secondary School and addressed to their peers in which young writers compare the car with a loaded gun in the hands of a drunk
- Full cooperation of the students in the role of volunteers in the association campaign for road safety with the distribution of leaflets.

We hope that with our previous efforts we have helped to prevent serious accidents and save lives.

We believe that any future activities will not only strengthen your position of a socially responsible institution, but will also continue to prove that solving the problems of the society requires the efforts of all its members.

Vladimir Todorov
Board chairman

Bulgarian Association of victims in car accidents
